I have some guidance from the Administrator and will provide it to Walter and Judith when they are available for a call. Please advise when a call would be convenient.

Subject: Hudson Update

Ann Klee called me this morning, and I just returned the call and spoke with her. She asked whether we had made a final decision; I said we had not. She then engaged in another discussion about $X = 12$, $X = 11$ or $X = 10$. She continued to argue for $X = 12$.

While the conversation was entirely professional and in fact friendly, she did speak in the terms and the tone of one who thought she was in a negotiation, and who feels that she has moved much further than her negotiating partner.
